## INTRODUCTORY AND EXPLANATORY OBSERVATIONS.

---

### LOCAL TAXATION IN IRELAND, 1910-11.

The receipts for the purposes of local government in Ireland during the financial year 1910-11, excluding loans, and grants provided by Statute, and making the necessary deductions for duplicate entries in the local accounts from which the following Returns have been prepared amounted to £4,720,278, an increase of £65,595, as compared with the preceding year.

Of this amount 74 per cent. was raised directly by rates assessed on lands, building &c., 12 per cent. was derived from tolls, fees, stamps, and dues, 5 per cent. came from rents of property in lands, houses, &c., while the remaining 9 per cent. was made up of various miscellaneous items of local income classed as other receipts; these proportions being practically identical from year to year.

The table on page vii gives the amount received from each of these sources, £3,487,924 as rates, £554,337 as tolls, &c., £261,321 as rents, and £416,596 as other receipts, and each of these heads of revenue, it will be observed, shows an increase on the corresponding amount in the preceding year. The chief increase was in poor rate, £25,955, while the increase in municipal and other rates amounted to £9,556. It may be seen by the table on page x. that there have been increases under these heads year after year for a long period, but it may be mentioned in regard to rates for municipal and other purposes that the increase is attributable mainly to payment of principal, interest, &c., in respect of money borrowed for sanitary schemes undertaken by Town Authorities. The increase of £21,861 in rents is mainly attributable to the great improvements made in connection with the housing of the working classes in urban and rural districts, and the increases under the other heads of revenue do not call for any special notice.

The total of the the four branches of local revenue, the sum first mentioned above, is regarded as the amount of the local taxation of the year, but it is to be noted that, unlike rates, the taxes known as tolls, fees, stamps, and dues are restricted in range of operation, and to a great extent represent payment for value received, while the income arising from rents, and from other receipts, is not the produce of any tax or rate, but is dealt with as such in its application to expenditure. Moreover, with regard to "other receipts" it will be seen hereafter that there are included under this head the profits of certain re-productive undertakings\* in the hands of some of the local bodies, representing 3·7 per cent. of the total net revenue of the year.

\* See pages vii. and viii

The amount produced by rates, in which is included about £109,010 raised in respect of water supplied for domestic and other private purposes (3·1 per cent. of the whole amount so produced),\* represents an average of 4s. 5½d. in the pound on the rateable valuation of Ireland at the beginning of the year, and an average of 15s. 11½d. per head of the population (4,368,568), as estimated at the middle of the year.

A net sum of £3,881,414 obtained from local sources, including rates to the amount of £3,425,559, was applied towards the expenditure of counties and towns during the year. This was supplemented by payments made from the Local Taxation (Ireland) Account to the extent of £1,277,800, and by further sums shown in the accounts to have been obtained from the Imperial exchequer and other Government source, amounting to £63,144, so that of the total net revenue of county and town authorities 74 per cent. came from local sources, and 26 per cent. from grants. On an average the grants were equivalent to 1s. 8½d. per pound of rateable value, and to 6s. 1½d. per head of estimated population as given above. The Agricultural Grant paid to county councils amounted to £727,337, and is equal to 24 per cent. of their whole revenue for the year. Its effect on the rates of 1910-11 for county, union, and district charges, in the case of each rural district, can be ascertained from Table XXXII. of the appendices.

The net expenditure from revenue during the year, as may be seen from the table on pages xii. and xiii., amounted to £6,951,575, or excluding electric lighting, gas, and tramway undertakings in the hands of municipal authorities it was £6,199,524,† of which a sum of £1,078,849, or 17·4 per cent., was applied to the discharge of borrowed moneys and the payment of interest and dividends on such moneys. Besides, it will be observed from a further table on pages xiv. and xv., that additional expenditure amounting to £1,695,817 was defrayed from loans and stock, of which £1,057,963 was incurred in connection with schemes for the housing of the working classes in towns, and for providing labourers' cottages in rural districts, while sums amounting to £118,525 were expended in connection with the three undertakings mentioned above.

The local indebtedness on account of loans and stock at the close of the year amounted as may be seen by a summary table on page xxx., to £23,390,939, details of which will be found at pages 64 to 77.‡ Of this £9,587,981 appertained to municipal authorities, being an increase of £7,930,339 since 1878, the year in which the first of the existing code of Irish public health statutes was enacted. The municipal indebtedness includes £1,643,578 for water supplies, £1,669,139 for purposes of lighting, £1,156,000 for sewerage, and £797,280 in respect of schemes for the housing of the working classes; while for housing schemes in rural districts the indebtedness stood at £5,890,375.

The amount standing to the credit of sinking funds applicable to the discharge of the portion of the local indebtedness which is repayable by such means was £1,064,603 at the close of the year, details of which are given in tables XXVII., XXVIII., and XXX. of the appendices.

\*See page xiii.

† See note at foot of pages xiv. and xlv.

‡ The dues not include any portion of the temporary loans advanced to Boards of Guardians in the early part of 1900 to enable them to procure seed potatoes to sell to small occupiers and cultivators who were unable to provide a supply for themselves owing to the partial failure of the potato crop in the preceding year; moneys on these loans will be recovered from those who received the seed by means of special rates levied on them for the purpose. See page 76, or sup., for details of the indebtedness of Boards of Guardians.

Of the amount of other receipts in the above table (£416,696) £284,777 appertained to urban and rural district councils and the Belfast Water Commissioners, of which a sum of about £177,094, 3·7 per cent. of the total receipts of the year, was derived from the profits of undertakings in the hands of these authorities. A farther portion of other receipts amounting to £56,705 was received in respect of Government property. These profits and receipts are referred to in the following paragraphs (a) and (b).

\* The sums paid to town authorities as "way leave" by tramway companies are included in this column.

† The amount of the rate levied in aid of the cost of the Dublin police force is included in the first two lines given above in poor rate.  
See further in this table on page 200.

## (a) UNDERTAKINGS IN THE HANDS OF LOCAL BODIES.

*Gas and Electric Light.*

The income derived from the gas, electric light, or other undertaking in the hands of a town authority is shown in tables II., III., and IV., of the appendices, but only profits on the year's transactions which have been applied towards municipal expenditure are included under the head of other receipts in the table on the preceding page. The total amount of the profits on lighting undertakings so applied in the year 1910-11 is £33,390. In addition to this sum it appears from the accounts that the total receipts exceeded by £24,630 the total expenditure (including charges in respect of borrowed money).

*Water.*

The receipts connected with water undertakings in the hands of local bodies are two-fold,—those produced by rates assessed on valuation, and those arising from sales of water, water rents, &c. The amount of the latter included in the other receipts of 1910-11 is £143,704. As previously stated,\* the sums produced by public and domestic water rates are included in the amount given as rates in the table on the preceding page, but as they are not always shown separately in the local accounts, it is not possible to determine with strict accuracy the amount produced by each such rate. From a careful estimate, however, it appears that of their total produce, viz., £197,795, a sum of £109,010 was for water supplied for domestic and other private purposes, being 3·1 per cent. of the total amount raised as rates during the year.

*Tramways.*

The tramway system in Belfast became the property of the Corporation of that city by purchase as from the 1st of January, 1905,—this being the only case in Ireland in which such an undertaking is managed by a local authority. The total receipts and expenditure connected therewith, amounting respectively to £218,301 and £217,846, will be found in table II. (Part I.) of the appendices.

## (b) BOUNTY IN LIEU OF RATES ON GOVERNMENT PROPERTY

The contributions† annually made by the Treasury to the local taxing authorities as bounty in lieu of rates on Government property are included in other receipts,—not having been raised locally as rates. The amount of such contributions in the accounts of the local bodies for 1910-11, is £56,705, of which town authorities received £45,691, and county authorities, £11,014.

\* See page vii.

† The first contributions were made in respect of the year ended March 1915. The value of Government property is not included in the valuations given to these bodies.

## CLASSIFICATION OF LOCAL TAXATION.

The various branches of local taxation in Ireland are classified hereinafter in the following manner, and such explanatory observations as appear to be necessary are given in each case.

- I. County Taxation
- II. Town Taxation
- III. Taxation in districts chiefly municipal, but raised by Authorities other than municipal in some cases.
- IV. Receipts of Joint Boards.
- V. Receipts of Post Sanitary Authorities
- VI. Taxation arising from Fens, Stamps, Fairs, Dogs License Duty, &c.
- VII. Taxation produced by Tolls, Dues, &c.
- VIII. Receipts on account of the Mercantile Marine Fund.

## I.—COUNTY TAXATION.

An administrative county, other than a county borough, comprises, as units of taxation for county purposes, a number of rural districts,\* varying from three in Carlow, Longford and Louth, to eighteen in Cork, the total in the thirty-three administrative counties amounting to 213. These districts are arranged with regard to the 158 poor-law unions as follows:—One hundred and twelve of the latter are confined to county limits, and of these 63 are co-extensive with rural districts, 48 include a rural district each with one or more urban districts, and 1 includes two rural districts, while 38 extend into two counties and 8 into three, the former including two rural districts each, a total of 76 and the latter three, a total of 24†.

The ordinary expenses of a county are provided for by means of a rate on each rural district, known as poor rate, which the county council is empowered to make once a year and collect in equal half-yearly moieties. The sums raised by this rate form portion of the fund from which all county expenditure is defrayed, including payment of the moneys required to meet the demands of boards of guardians for poor law purposes including relief under the Medical Charities Act, councils of rural districts for general expenses in connection with public health, and the committees of 22 of the 23 asylum districts for the accommodation and maintenance of lunatic poor.‡

For expenses other than the foregoing, *i.e.*, payments in connection with charges for sewerage, water supply, or other public health undertaking, guarantees for railways, harbours, &c., compensation for criminal injuries and the cost of extra police, all of which are known as separate charges, special rating areas are prescribed, and the sums required for these purposes are separately estimated and raised by a separate item of the poor rate assessed on the special area in each instance. The area of charge in respect of a public health undertaking may consist of the whole, or part only, of a rural district, while in the other cases mentioned it may include the whole county, or be restricted to a portion of the county.

County councils are also authorised to make rates for the following purposes. By section 19 (1) of the Agriculture and Technical Instruction (Ireland) Act, 1889, they are empowered to raise by means of the poor rate, for the purpose of agriculture and other rural industries,§ or for any other purpose for which they are authorised by that Act to expend money, a sum equal to a rate of one penny in the pound over the whole of the rural districts comprised in their respective counties, congested areas being excluded if the councils in such cases so desire, pursuant to section 1 of the Agriculture and Technical Instruction (Ireland) Act, 1902. They are also required by section 4 of the Public Libraries (Ireland) Act, 1902, to provide the moneys which rural district councils, who have adopted the Public Libraries Act (Ireland), 1855, may find to be necessary for the purposes of that enactment, by means of a rate not exceeding one penny in the pound, to be levied in each case, over the whole rural district. These rates are in addition to the maximum rate of a penny under the Technical Instruction Act, 1889, the council of a county being a local authority within the meaning thereof, and their expenses as such being county at large or rural district charges as the council direct, pursuant to the Local Government (Ireland) Act, 1898, sections 7 and 74 (2) respectively.

In addition to the purposes mentioned in the preceding paragraph for which county councils may make rates the council of any county may, pursuant to the provisions of Section 10 (2) of the Irish Universities Act, 1908, assist, by means of exhibitions, scholarships, bursaries, payment of fees, or otherwise, any students at any university in Ireland who are ordinarily resident in their county who satisfy the council that they are qualified to profit by university instruction and are in need of assistance, and who also

\*Urban districts are also comprised in the counties, but not for purposes of taxation. As rating areas distinct from those in counties they are dealt with under the head of Town Taxation on page xx.

†See page 36 of *map* for list of rural districts and page 73 of *map* for list of unions. In the latter the unions are placed in one county in each case, a union extending into two or more counties being placed in the county in which its chief or central place is situated.

‡See page 65 for list of asylum districts.

§The amount so raised, in conjunction with a larger amount contributed by the Department of Agriculture and Technical Instruction, appears to be expended in affording instruction in agriculture and other rural industries and also in technical instruction.

satisfy such tests of ability as may be prescribed by the university, and may also place any sums at the disposal of any university in Ireland or any college thereof, to be applied for any educational purposes which the council may consider will benefit their county. Any expenses so incurred shall be paid as a county at large charge, but the amount raised in any year for the purpose shall not exceed the amount which would be produced by a rate of one penny in the pound, or such higher rate as the council, with the consent of the Local Government Board, may fix.

The rate on each rural district for the ordinary expenses of the year ended the 31st of March, 1911, and the items included therein for county at large, union, and rural district charges, as levied on agricultural land and on other hereditaments, are shown in a table on pages 80 to 87. The rate for separate charges in each case where it is levied over the whole area comprised in a rural district is also given in the table, together with the total amount collected in each district during the year, *i.e.*, the produce of the general rate on the district, and of the rate or rates, for separate charges, irrespective of the area on which the latter may have been assessed, and the total for each county, which total also appears with other county receipts on page 2.

In the accounts of 1910-11 and the previous year particulars have been introduced of the seed rate collected and paid over to such Boards of Guardians as obtained loans for the purchase of seed potatoes in the early part of 1908, but the matter does not affect local taxation, as this rate is merely the price paid by small occupiers and cultivators for seed supplied to them. Omitting such particulars, the revenue and expenditure of the counties in the last two years are summarized as follows:—

The receipts from revenue in 1910-11 show that while there was an increase of £37,554 in poor rate collected in rural districts, there was a decrease of £55,678 in grants and payments from Imperial sources, and £6,753 in all other receipts, making a net decrease of £24,877.

The expenditure from revenue shows an increase of £12,147 on that of 1909-10; but the moneys supplied to boards of guardians for union charges and to committees of lunatic asylum districts show decreases of £9,344 and £2,378, respectively, while the moneys supplied to rural district councils for expenses in connection with public health and other matters show a slight increase of £713. The expenditure on roads increased by £12,036, and there was a further increase in the similar expenditure defrayed from loans of £37,399. In addition to the amount paid to boards of guardians, as shown in the preceding summary, viz., £1,095,639, it will be seen by Table II of the appendices, that further sums, amounting to £242,870, were paid by the councils of the county boroughs to the guardians whose unions are partly included in these boroughs. It will also be seen by that table that payments were made to committees of lunatic asylum districts by the councils of county boroughs to an amount of £117,404 additional to the sum of £420,716, given on the preceding page. The following are brief summaries of the accounts of boards of guardians, of rural district councils, and of committees of lunatic asylum districts, for the year ended the 31st of March, 1911, and for the preceding year:—

## II.—TOWN TAXATION.

The number of towns under municipal government is one hundred and twenty-four, of which eleven are boroughs constituted under the Municipal Corporations (Ireland) Act, 1840 (3 & 4 Vict., ch. 108); one hundred and four are under the Towns Improvement (Ireland) Act, 1854, (17 & 18 Vict., ch. 103); and nine are under special local Acts named in the table on page 14. Six of these in the first-mentioned group are administrative counties, i.e., county boroughs, and ninety-six, including one formed during the year, of the total number are urban sanitary districts. These districts, known as urban districts, are the eleven boroughs, the nine towns under local Acts, and seventy-six of those under the Towns Improvement Act.

Lists of the towns, in provincial and county order, classified in accordance with their municipal constitution, and also alphabetically arranged as urban and non-urban districts, are given in tables in the appendices.\* In that in which the towns under the Act of 1854 appear a column will be found giving the date on which this enactment came into force, in each case, but some of these towns had previous municipal existence, among which the following were brought under its operation by Section 41 of the Local Government (Ireland) Act, 1888:—Carrickfergus, Bandon, Dungannon, Fethard, Monaghan, Strabane, and Wicklow. The first-named town had been previously under sections 16 and 26, respectively, of the Municipal Corporations (Ireland) Acts, 1840 and 1843, the remainder under 9 Geo. IV., ch. 82. The provisions of the Towns Improvement Act, in whole or in part, are also in operation in six of the eleven boroughs—the Act not extending to five of them, as provided by Section 100—and in seven of the nine towns under local Acts. These thirteen towns are specially indicated in notes prefixed to Tables II. and III. of the appendices.

Within their respective jurisdictions urban district councils possess full administrative powers in regard to matters pertaining to public health, they are the sole rating authorities, and are, moreover, road authorities, and, as such, share in the grant provided by the Probate Duties (Scotland and Ireland) Act, 1888, now known as the Estate or Death Duty Grant. They receive recoupment, also, from the local taxation account in respect of the salaries paid to their sanitary officers, and, for the promotion of technical instruction, grants are made to them in aid of approved schemes by the Department of Agriculture and Technical Instruction. The amount at present allocated under this head for the county boroughs is £26,000 a year, and for counties and urban districts £25,000.

As previously mentioned, the six county boroughs are administrative counties in themselves, but other urban districts, although free from county jurisdiction, are liable to contribute to certain branches of county expenditure. The liability in this respect of such urban districts as have been dealt with by the Local Government Board, under section 71 of the Local Government (Ireland) Act, 1888, section 3 of the Act of 1901, and sections 3 and 13 of the Act of 1902, and the financial relations generally between counties and these urban districts can be ascertained from table XXXV. of the appendices to the Returns for the year 1907-8.

The twenty-eight towns† which have not been constituted urban sanitary districts are subject, as regards public health matters, to the control of the councils of the rural districts in which they are respectively situated,—the governing bodies of these towns, Town Commissioners, having no administrative powers *per se* under the Public Health Acts. However, to enable them (a) to provide housing accommodation for the working classes they are authorised by section 99 (1) of the Housing of the Working Classes Act, 1890, to adopt Part III. of that enactment as in the case of urban authorities, (b) under the provisions of the Housing of the Working Classes (Ireland) Act, 1908, similarly to adopt Part II. relating to Unhealthy Dwelling Houses, and the sections of the Public Health (Ireland) Act, 1878, in regard to borrowing, acquiring lands, &c., which apply to these

\* Tables II, III and IV, and XXXIII. and XXXIV, respectively. † See page 99

authorities for housing purposes, are declared applicable to the Commissioners for the like purposes by the Housing of the Working Classes Acts, 1893 and 1894, and the Housing of the Working Classes (Ireland) Act, 1896. Moreover the maximum rate of 1s. in the £ leviable in these towns under section 60 of the Act of 1854 may be increased for such purposes with the consent of the Local Government Board. In the following towns of this class housing schemes have been put into operation:—Ballyshannon, Bandon, Bantry, Boyle, Callan, Maryborough, Mullingar, Newbridge, Newcastle and Roscommon. The Commissioners are also authorized to establish and regulate markets in their towns, the powers in this respect conferred on urban authorities by section 103 of the Public Health Act, 1878, being extended to them by Section 21 of the Public Health Act, 1896.

The latest rates in urban districts, and those for the preceding year, will be found in table XXXIII. of the appendices, together with particulars as to the amount of poor rate collected, the population, valuation, area, &c., in each case. Similar information with respect to rates, population, valuation, &c., in towns which are not urban districts, will be found in table XXXIV. In two of these towns, Fethard and Tuam, no rates are struck as the revenue derived from market tolls and rents is sufficient to meet expenditure, in Callan rates have not been necessary for some years, while in the remaining towns the rates vary from 5d. to 1s. It is to be noted, however, that these rates are for municipal purposes only, and that, in addition, each town is liable for the rate on the rural district in which it is situated, and, further, if the town is included in an area of charge for any of the special purposes mentioned in page xvi., it is also liable for the rate required to meet payments in connection therewith.

The rateable valuation (1st March, 1911) of the urban districts amounted to £4,436,650 and of the towns which are not urban districts to £129,519, making a total of £4,557,169 from which it appears that property amounting to upwards of one-fourth part of the rateable valuation of Ireland (£15,742,279) was included in areas subject to municipal government.

#### RECEIPTS AND EXPENDITURE OF TOWN AUTHORITIES.

An abstract of the receipts and expenditure in each town during the year ended the 31st of March, 1911, will be found in the appendices.\*

All the receipts from revenue are grouped in Part I. of the following table in order to facilitate comparison, and obtain a general view of the finances of the different classes of town authorities, and they are divided into (1) rates for municipal purposes; (2) poor rates made and collected by councils of urban districts; (3) tolls and market charges, dues, and fees; (4) rents; (5) dogs' licence duty; (6) petty sessions stamps and Crown fines; (7) receipts from waterworks; (8) receipts from gasworks; (9) receipts from electric lighting undertakings; (10) receipts from tramways; (11) other receipts; (12) payments from the Local Taxation Account and other Government sources; and (13) sums received from other local taxing bodies.

The purposes to which the receipts are applied are shown in Part II.

The receipts and expenditure from loans, or the issue of stock, are grouped in Parts III. and IV., respectively.

### III.—TAXATION IN DISTRICTS CHIEFLY MUNICIPAL, BUT RAISED BY AUTHORITIES OTHER THAN MUNICIPAL IN SOME CASES.

#### (a.) BELFAST WATER RATE.

The Belfast City and District Water Commissioners are empowered to levy the following rates in connection with the water supplied by them to the city of Belfast and certain adjacent districts:—A domestic water rate not exceeding 1s. 8d. in the £, and a public water rate equal to one-fourth part of the domestic rate, subject to a proviso that the latter in certain cases shall not exceed 2d. The rates assessed for the latest year preceding the 31st of March, 1911, viz., that ended on the 31st of October, 1910, were 1s. 4d. and 4d., respectively.

The receipts and expenditure of the Commissioners during that year are shown in table VI. of the appendices, and they are summarized as follows:—

Receipts.		Expenditure.	
	£		£
Rates, .. .. .	62,045	Payments in respect of borrowed money:—	
Water rents and sales, .. .	38,741	Principal paid off, .. .	30,984

Total, .. .	<u>£140,310</u>	Total, .. .	<u>£141,626</u>

#### (b.) TAXATION IN AID OF THE COST OF POLICE.

##### (1.) *The Dublin Metropolitan Police Establishment.*

Under section 4 of the Act 1 and 2 Vict. ch. 25, a rate of 8d. in the £, producing an average of about £44,600 a year, is assessed within the police district of Dublin Metropolitan in aid of the cost of the Dublin Metropolitan Police. By section 66 (4) of the Local Government (Ireland) Act, 1898, it is provided that the produce of this rate shall be paid in two equal half-yearly payments to the Commissioner of Police on his demand, by the council for the city of Dublin as regards so much thereof as is raised in the city, and by the council of the county of Dublin as regards so much as is raised outside the city. As in 1910, the portion raised in the city during the year ended in March, 1911, was not paid over in accordance with this requirement, and, in consequence, an equivalent amount was deducted from sums payable to the council from the local taxation account, pursuant to section 80 (2) of the last-named Statute, and applied in discharge of the Commissioner's demand.

The amount so deducted and applied, which, for the purpose of these Returns of Local Taxation, is regarded as the sum raised by the police rate in the city, and the produce of such rate in the county, together with certain receipts in the nature of local taxation (publicans' and pedlars' certificates, &c.), for the year ended the 31st of March, 1911, all of which were appropriated in aid of the cost of the police and police courts, are as follows, being summarized from table VII. of the appendices:—

#### I. Dublin Metropolitan Police Tax.

Rates on houses and land (in city, £30,028; in county, £15,768), .. .. . 45,796

#### II. Other Receipts.

Carrage Duty,* .. .	3,492
Publicans' and pedlars' certificates, .. .	444
Fees from police courts, .. .	1,693
Fines and penalties from police courts, .. .	4,216
	<u>9,845</u>
Total, .. .	<u>£55,641</u>

\* i.e. Duties payable under the Dublin Carrage Acts

The average amount realized by local appropriations in aid of the cost of this force and the police courts during the five years ended March, 1911, was £55,302, of which a sum of £44,590 was raised by the police rate.

(ii.) *The Royal Irish Constabulary.*

The cost of the Royal Irish Constabulary is charged on Imperial funds, but there are certain payments made from the taxes levied by county councils which are appropriated in aid of the vote for the maintenance of that service in pursuance of the following arrangement:—

In any county in which a force of police in excess of the allotted free quota is found to be necessary, one-half the cost of such extra force is charged to the county council; and it will be seen by table I. of the appendices that the sums paid for additional police in counties during the year ended the 31st of March, 1911, amounted to £34,562.

Town authorities are charged for the Constabulary in certain cases only. In Belfast and Londonderry, the charge is made for one-half the cost of an extra force additional to the ordinary force which is maintained entirely from Imperial funds, and for the whole cost of such members of the police as are engaged in night watching. This outlay is regulated by Statute in each case, 28 and 29 Vic., ch. 70, and 33 and 34 Vic., ch. 83, respectively, and it amounted in the first-named city to £30,778, and in the latter to £770 for the year under review. In Cork, a sum of £2,863 has been charged for the same year, being one-half the cost of an extra force employed during the period.

The charge on local taxes for the cost of this police in 1911 would, therefore, appear to have amounted to £48,973.

(c.) *ROTUND SQUARE TAX (DUBLIN).*

The Governors of the Rotunda Hospital levy a tax under 25 Geo. 3, ch. 43 (Ireland), sections 20 and 21, on the occupiers of the houses on the east, north, and west sides of Rotund Square for the purpose of lighting those sides of the square, and for keeping the railings of the enclosure in repair—the balance being applied towards the maintenance of the hospital. The tax is a charge on each house in the square of 1s. 9d. per foot of the frontage thereof, with a fixed annual payment by the residents for each light or lamp in front of their houses. The receipts on account of this tax in the year ended the 31st of March, 1911, amounted to £820, and the other receipts to £234, of which a sum of £80 was applied to purposes of lighting, and £105 towards wages, repairs, &c., leaving a balance of £369 available towards the maintenance of the hospital, as may be seen by table VIII. of the appendices.

(d.) *TAXATION IN CONNECTION WITH THE PORT AND DOCKS BOARD, DUBLIN.*

It is enacted by the Statute 17 Vic., cap. 23, that the cost of preserving and repairing certain quay walls and bridges in the City of Dublin shall be provided by a tax to be levied within the police district of the Metropolis. By section 66 (4) of the Local Government (Ireland) Act, 1898, the produce of this tax (if any) is now payable to the Dublin Port and Docks Board by the council for the city of Dublin as regards the portions raised in the city and by the council of the county of Dublin as regards the portion raised outside the city. The total amount raised in the year under review was £196, as may be seen by table IX. of the appendices.

## IV.—JOINT BOARDS FOR SANITARY PURPOSES.

(a.) *Drainage Boards.*

There are three joint boards established in Ireland for sewerage purposes, viz., Blackrock and Kingstown, Rathenines and Pembroke, and that of the Skule Bog united district, which consists of certain townlands in the Croom and Limerick No. 1 Rural Districts in the County of Limerick. The two first-named boards were constituted by special legislation, 56 and 57 Vict., ch. cccxiv., and 40 and 41 Vict., ch. lxxxix., respectively, and the third by Provisional Order under Section 12 of the Public Health (Ireland) Act, 1878, confirmed by 1 Edw. 7. ch. cxliii.

The receipts and expenditure of these bodies are set forth in table X. of the appendices, of which the following is a summary:—

<i>Receipts.</i>		<i>Expenditure.</i>	
	£		£
From the constituent bodies, ..	11,334	Works and maintenance, ..	3,141

		Other expenditure, ..	552
Total, ..	£11,358	Total, ..	£12,723

(b.) *Waterworks Board.*

For the purpose of supplying water to the urban districts of Portadown and Banbridge a joint board consisting of a representation of the council of each of these districts has been formed, in pursuance of a Provisional Order made and confirmed in 1902, 2 Edw. 7. ch. xciii. This body, known as the Portadown and Banbridge Joint Waterworks Board, and the Belfast City and District Water Commissioners already referred to, are the only public bodies in Ireland, other than the councils of urban and rural districts, who are authorised to provide water supplies for public and domestic use. Unlike the Commissioners, however, the Board is not invested with rating powers,—its expenditure being provided for by funds supplied by the councils of the constituent districts, on demand, as is the case with every joint board.

The following is a summary statement of table XI. of the appendices showing the receipts and expenditure of this Board during the year under review:—

<i>Receipts.</i>		<i>Expenditure.</i>	
	£		£
From the constituent bodies, ..	4,425	Works, ..	256

		Expenditure defrayed from loans, ..	2,174
		Other expenses, ..	220
Total, ..	£4,617	Total, ..	£6,591

(c.) *Board for Cleansing of Foreshore.*

To provide for the abating of a nuisance caused by the deposit of seaweed and sewage matter on a portion of the southern foreshore of Belfast Lough, a joint board, consisting of a representation of the Corporation of Belfast, and of the Councils of the urban district of

Holywood, and of the rural district of Castlereagh, known as the Belfast, Holywood, and Castlereagh Joint Board, has been formed, pursuant to a Provisional Order made in April, 1905, and confirmed by 5 Edw. 7, ch. cxxiii. The following is a brief statement of its receipts and expenditure for the year, as taken from table XII. of the appendices:—

Receipts.	£	Expenditure.	£
From the constituent bodies, ..	2,000	Cost of removing seaweed, ..	1,331
Money borrowed, ..	—	New works (tramway), ..	—
Other receipts, ..	—	Payments in respect of borrowed money:—

		Sinking fund, ..	—
		Expenditure defrayed from loans, ..	94
		Other expenses, ..	99
Total, ..	<u>£2,000</u>	Total, ..	<u>£2,042</u>

(d.) *Hospital Boards.*

Joint boards have also been constituted in like manner in four instances for the management of hospitals for special purposes as follows. For cases of infectious disease arising in the urban districts of Rathmines and Pembroke; for consumptives in Cork City and the urban and rural districts in Cork County; for cases of infectious disease in the urban districts of Bangor and Donaghadee and the urban and rural districts of Newtownards; and for consumptives in the county borough of Dublin, the urban district of Dalkey, and the four rural districts of Balrothery, Celbridge No. 2, and North and South Dublin. These bodies are known respectively as the Rathmines and Pembroke Joint Hospital Board (63 and 64 Viet. ch. cxc.), the County of Cork Joint Hospital Board (4 Edw. 7, ch. cxxiv), the Bangor and Newtownards Joint Hospital Board (4 Edw. 7, ch. cxxiv., and Provisional Order of the 26th of March, 1907, confirmed by 7 Edw. 7, ch. cviii.), and the Dublin Joint Hospital Board (Provisional Order of the 24th of May, 1907, confirmed by 7 Edw. 7, ch. liii.). The following is a summary of the accounts of these bodies for the year,—a short abstract being given in table XIII. of the appendices:—

Receipts.	£	Expenditure.	£
From the constituent bodies, ..	14,806	Salaries and wages, ..	2,332

		Other expenditure, ..	13,044
Total, ..	<u>£15,240</u>	Total, ..	<u>£16,171</u>

(e.) *Burial Boards.*

Eight joint burial boards, as named in table XIV. of the appendices, have also been constituted in the same way: each board, with one exception,\* acting for a district comprising one or more urban districts united with a rural district, or with part of such a district. The councils of urban and rural districts are in all other cases the burial boards for their respective districts, and the receipts of the former as such are included in the town returns in tables II., III., and IV. of the appendices, the fees received by the latter being shown in table V.

\*Dungar burial board, which consists of representatives of three rural district councils. See second note to Table XIV., on page 24.

The following is a summary of the accounts of these boards for the year :—

<i>Receipts.</i>		<i>Expenditure.</i>

#### V.—PORT SANITARY AUTHORITIES.

In pursuance of section 9 of the Public Health (Ireland) Act, 1896, sanitary bodies have been constituted, under Provisional Orders subsequently confirmed, for the ports of Belfast, Londonderry, Dublin, Galway, Cork, Waterford and New Ross, these bodies being designated Port Sanitary Authorities. In the first-mentioned case the Corporation of Belfast is the sanitary authority for the port, but in each of the other cases a joint board has been formed consisting of a representation of the councils of the sanitary districts abutting on the port, one such board acting for the two ports of Waterford and New Ross.

The receipts and payments of these bodies during the year are set forth in table XV., of which the following is a summary :—

<i>Receipts.</i>		<i>Expenditure.</i>	
	£		£
From the constituent bodies, ..	1,231	Salaries and wages, ..	934

Total, ..	<u>£1,312</u>	Total, ..	<u>£1,468</u>

#### VI.—TAXATION ARISING FROM FEES, STAMPS, FINES, DOGS LICENCE DUTY, &c.

This species of taxation is applied partly to the remuneration of officers of local courts, and partly in aid of county and town rates, as appears hereafter.

The officers styled Clerks of the Peace and Clerks of the Crown, whose salaries are charged on local rates, are now reduced in number to three of each, as shown in tables XVI. and XVII. of the appendices. In the remaining counties and boroughs these offices have been united as provided for by the County Officers and Courts (Ireland) Act, 1877, and an appointment has been made to the united office of a person styled Clerk of the Crown and Peace, whose salary is paid out of funds provided by Parliament.

<b>Total,</b> .. .. .	..	<b>£78,037</b>

The salaries and retiring allowances of the clerks of Petty Sessions are charged on the fund produced by Crown fines and the sale of Petty Sessions stamps, and, in order to secure the fund from variation by reason of the fluctuation which necessarily occurs in the amounts received from these sources, the Registrar of Petty Sessions clerks is authorised by the Act 44 & 45 Vict., ch. 18, to deduct from the dogs licence duty, mentioned in the next section, such sum as the Lord Lieutenant may order for any calendar year, and to add it to the fund.

(d.) *The Dogs Licence Duty.*

The collection of the dogs licence duty, 2s. for each animal, with 6d. for the registry of each licence, is entrusted to the Petty Sessions clerks, and a return of it is made to Parliament by the Registrar of Petty Sessions clerks. A considerable part of the remuneration of Petty Sessions clerks is derived from the dogs licence duty, as mentioned in the preceding paragraph. The surplus of the duty, after providing for the cost of collection, is paid over in aid of county and town rates, pursuant to 28 Vict., ch. 50, as amended by 30 and 31 Vict., ch. 116.

The following summary shows the amount of this duty collected for the latest year available, £50,361, as against £49,398 in the preceding year. Details of the payments made from the latter amount to county and town authorities will be found in tables I., II., III., and IV., of the appendices,—those to counties amounting to £17,750 and to towns £2,945:—

## ARTERIAL DRAINAGE.

*Repayments to the Commissioners of Public Works in respect of loans for construction of drainage works, and of expenditure on maintenance in case of default by Drainage Boards.*

The particulars of these repayments have been supplied by the Commissioners of Public Works. The repayments made by proprietors of lands amounted to £27,072, and the sum repaid out of county rates was £1,886, as may be seen by table XXIII. of the appendices.

*Loans and stock outstanding against local Bodies.*

Tables XXV., XXVI., XXVII., XXVIII., XXIX., and XXX. give in detail, respectively, the capital indebtedness of county councils, committees of lunatic asylum districts, town authorities, the Belfast City and District Water Commissioners, joint boards for sewerage, burial, port sanitary and other purposes, rural district councils, boards of guardians, and harbour authorities, at the close of the financial year ended on or before the 31st of March, 1911.

The following is a summary of the local indebtedness:—

	County Councils	Commit- tees of Lunatic Asylum Districts	Councils of Towns under Municipal Corporation Act	Commis- sioners of Towns under several Acts	Commis- sioners under Towns Improvement Act	Belfast City and District Water Commis- sioners	Joint boards for sewerage, burial, port sanitary, and other purposes. NOTE.—Deductions on account of duplicate entries, &c.

Certain deductions, chiefly to avoid duplicate reckonings, have been made in the accounts dealt with in these returns, as follows:—

In county taxation the other receipts on page xvii. have been reduced by £8,158 paid from the General Cattle Diseases Fund, and £14,516, which was not part of the taxation of the year; in town taxation the other receipts included in the table on page xxii. have been reduced by the following sums:—£1,120 from the General Cattle Diseases Fund, and further sums amounting to £37,080. The Rural District Fund has been reduced by £1,154, the Union Fund by £1,091, and in the case of the other receipts shown in the accounts of Joint Boards and Port Sanitary Authorities sums of £258 and £25, respectively, have been deducted. In harbour taxation the receipts on page xxx. have been reduced by £14,891 pilotage dues, and the other receipts by £4,336.
